In daily use																																																																																														
29 extraDry	29 Eco forecast	29 Auto Power Off	29 EmotionLight	29 Front display	Intended use aus 6 Intended use I nt e n d e d u s e	This appliance is intended for use in the home and domestic environments. Use the dishwasher only in the home and only for its designated purpose: for washing domestic dishes. This appliance is intended for use up to a maximum altitude of 4000 metres above sea level.aus Safety instructions Installation	6 Following installation, ensure that the back of the dishwasher is not freely accessible (protection against contact due to hot surface). Install and connect the appliance according to the installation and assembly instructions. Prior to installation, disconnect the dishwasher from the power supply. Ensure that the protective conductor system of the domestic supply has been correctly installed.Safety instructions aus	Please note that the insulation material of the dishwasher power cord may melt next to heat sources (e.g. heating / hot water installations) or hot appliance parts. Make sure that the power cord of the dishwasher never comes into contact with heat sources or hot appliance parts. After installing the appliance, ensure that the plug is easily accessible.aus Safety instructions : Warning Risk of injury!	To prevent injuries, e.g. caused by stumbling, open the dishwasher only briefly in order to load and unload the dishwasher. Knives and other utensils with sharp points must be placed with the points downwards in the cutlery basket*12 or horizontally on the knife shelf* or in the cutlery drawer*1*. Do not lean or sit on the open door. In the case of free-standing appliances, ensure that the baskets are not overloaded. The appliance could tip.Safety instructions aus	Ensure that children do not place fingers in the tablet collecting tray 1B. Small fingers could become caught in the slots. When opening and closing the door on an eye-level appliance, ensure that children do not become jammed or crushed between the appliance door and the cupboard door below. Children could become locked in the appliance (danger of suffocation) or get into another dangerous situation.aus Environmental protection Deactivate the child-proof lock (door lock) as follows: 1. Press the catch of the child-proof lock to the right (1). 2. Press the catch of the child-proof lock backwards (2). The childproof lock is deactivated. 7 Environmental protection Both the packaging of new appliances and the old appliances themselves contain valuable raw materials and recyclable materials. Please dispose of the individual parts separated according to type.Getting to know your appliance aus * Getting to know your appliance Diagrams of the control panel and the interior of the appliance can be found at the front of the manual. Individual positions are referred to in the text. Get i ng t o know your ap l i ance Control panel See Fig.aus Getting to know your appliance Info button { Time setting I n f o but on T i me set i ng The Info button { can be used to display additional programme information. 1. Press the Info button { 8. 2. Press the programme button. Information on the selected programme is indicated on the display window at the top @. Scroll with < > Set with - + Leave with Setup 3 sec. 4. Keep pressing button > } until the required setting is displayed. 5.Getting to know your appliance aus Setting Factory setting Infotext by pressing Info button {	On Light is projected to signal an active cleaning cycle. Start programme * The last selected programme * When switching on, the last selected programme appears. *Tone volume * Setting 2 Volume of signal at end of programme. Button volume Setting 2 Volume when using buttons. Childproof lock * Off Activated child-proof lock impedes opening of door.aus Rinse aid 2. Add rinse-aid up to the max. mark. Rinse aid As soon as the low rinse-aid indicator H is lit on the control panel or is requested on the front display * J2, rinse-aid should be topped up. The rinse aid is required for stain-free utensils and clear glasses. Use only rinse aid for domestic dishwashers. Combined detergents with rinse-aid component may be used up to a water hardness of 21° dH (37° FH, 26° Clarke, 3.7 mmol/l) only. If the water hardness is over 21° dH, rinse-aid must be used.Utensils aus Setting amount of rinse aid The amount of rinse aid to be dispensed can be set from 0 to 6. Set the amount of rinse aid to be dispensed to 5 to obtain a very good drying result. Do not change the amount of rinse aid unless there are streaks or water stains on the utensils. Set a lower level to avoid streaks. Set a higher level to avoid water stains. Set the amount of rinse aid as follows: 1. Open the door. 2. Switch on ON/OFF switch (. 3.aus Utensils Loading the dishwasher 1. Remove large food remnants. It is not necessary to prerinse utensils under running water. 2. Place the utensils so that – they are secure and cannot tip over. – all utensils with their openings face down. – parts with curves or indentations are at an angle, thereby allowing water to drain. – does not obstruct rotation of the two spray arms 1: and 1J. Very small utensils should not be washed in the machine, as they may fall out of the baskets.Utensils aus Tip: Heavily soiled utensils (pans) should be placed in the lower basket. The more powerful spray jet provides a better dishwashing result. You can take out the cutlery drawer. Tip: Other examples, such as the best way of loading your dishwasher, can be found on our homepage. These can be downloaded free of charge. The corresponding Internet address can be found on the back page of these instructions for use.aus Utensils Etager e * The etager e and the space underneath can be used for small cups and glasses or for larger items of cutlery, such as wooden spoons or serving cutlery. If you do not require the etager e, it can be folded up. Etager e Folding spikes * * Depending on the features of your dishwasher, the spikes can be folded down. This facilitates arrangement of pots, bowls and glasses. Fol d i n g s p i k e s Fold down the spikes as follows: 1. Press lever forwards (1). 2. Fold down spikes (2).Utensils aus Knife rack * Baking sheet spray head * Kai f e r a c k Baki ng she t spray head * Depending on the features of your dishwasher, the upper basket is fitted with a knife shelf. Long knives and other utensils can be placed in the knife shelf. * depending on the features of your dishwasher Large trays or grilles as well as large plates (gourmet plates, pasta plates, dinner plates) can be cleaned with this spray head. Insert the spray head as follows: 1. Remove upper basket 12. 2.aus Utensils Unloading the dishwasher To prevent water from dripping off the upper basket onto the utensils in the lower basket, it is recommended to empty the appliance from the bottom up. Tip: Hot utensils are sensitive to shock! Therefore, when the programme ends, leave the utensils to cool down in the dishwasher until they can be handled. Note: When the programme ends, water droplets can still be seen inside the appliance. This does not affect the drying of the utensils.detergent aus Upper basket with side levers 1. Pull out upper basket 12. 2. Hold the sides of the basket along the upper edge. This prevents it from suddenly dropping. 3. To lower the upper basket; press in both levers on the left and right on the outside of the basket. The upper basket lowers. 4. To lift the upper basket; grip the sides of the upper basket along the upper edge and lift. 5. Ensure that both sides of the upper basket are at the same height. 6. Push in upper basket.aus detergent Adding detergent 1. If the detergent dispenser 9* is still closed, actuate locking bar 9* to open it. 2. Pour detergent into the dry detergent dispenser 9* only (insert tablet flat, not on its edge). 3. Dosage: see manufacturer's instructions on the packaging. Use graduated detergent dispenser. Usually 20 ml–25 ml are adequate for normal soiling. If using tablets, one tablet is adequate. 50 ml 25 ml 15 ml 4. Close cover on the detergent dispenser. Cover "clicks" into position.Overview of programmes aus / Overview of programmes The max. possible number of programmes is illustrated in this overview. The corresponding programmes for your appliance can be found on the fascia. The programme data has been measured in the laboratory according to AS/NZS 2007. Overview of pr ogr ammes Note: The consumption figures depend on the selected programme and additional functions. The programme figures will be different if the machine is short of rinse aid or the function is turned off.aus Overview of programmes Type of utensils Programme and soiling sensitive utensils, cutlery, temperature-sens itive plastic and Glass Wash glasses slightly adhesive. 40* Fresh food remnants Utensils and cutlery Normally soiled Utensils and cutlery Lightly soiled Programme data Possible 1.) Duration: hs/mins additional 2.) Energy options consumption in kWh 3.) Water consumption in litres 4. Additional functions aus 0 Additional functions * Depending on the features of your dishwasher, you can select different additional functions . Ad d i t i o n a l f u n c t i o n s Y Speed Perfect * This function can reduce the running time by approx. 20% to 50% depending on the selected rinse programme. To obtain optimum cleaning and drying results at a reduced running time, water and energy consumption are increased. Spe d Per f e c t § Half load * If you have only a few items to wash (e.g.aus Operating the appliance 1 Operating the appliance Oper at i ng t he ap l i ance Changing the settings The dishwasher has been preset with certain settings for your convenience. You can change these factory settings. Change the setting as follows: 1. Open the door. 2. Switch on ON/OFF switch (. 3. Press Info button {8 for 3 seconds until the following text is indicated on the display window at the top @: Scroll with < > Set with - + Leave with Setup 3 sec. 4. Operating the appliance aus Sensor setting The programme sequence is optimised in Auto programmes with the aid of sensors. The sensors adjust the programme strength of Auto programmes depending on the amount and type of soiling. You can adjust the sensitivity of the sensors in 3 stages. Standard: This setting is ideal for a mixed load and heavily soiled utensils, but also saves energy and water.aus Operating the appliance TimeLight (Optical display while the programme is running) * * depending on the features of your dishwasher While programme is running, an optical display (additional programme information) is indicated on the floor under the appliance door. If the base panel is pulled forwards or if the appliance is installed at eye-level with flush furniture front, the display is not visible. You can switch the optical display on or off.Operating the appliance aus Time preselection Switching off the appliance You can delay the start of the programme by up to 24 hours. Depending on the setting of the time display, the end of programme is indicated with "Finish in" (for example 3h 25m) or "Finish at" (for example 15:20 hours). Short time after the end of the programme: 1. Open the door. 2. Switch off ON/OFF switch (. 3. Turn off tap (does not apply to appliances with Aqua-Stop). 4. Remove the utensils when they have cooled down.aus Cleaning and maintenance Terminating the programme (Reset) 1. Open the door. 2. Press the START button h and 2 Cleaning and maintenance Ter mi nat i ng t he pr ogr ame 3. 4. 5. 6. hold for 3 seconds The display window at the top @ and the front display * J2 show: "Program was terminated". Close the door. The programme sequence lasts approx. 1 min. The display window at the top @ shows: "Finished". Open the door. Switch off ON/OFF switch (. Close the door.Cleaning and maintenance aus Notes * Only clean the appliance with special detergents/appliance cleaners which are suitable for use with dishwashers. * Regularly wipe the door seals using a damp cloth and a little washing-up liquid. This will keep the door seal clean and hygienic. * Leave the door open slightly if the appliance will not be used for a while. This will prevent an unpleasant odour from developing. * Never clean the dishwasher using a steam cleaner.aus Cleaning and maintenance Notes * Remove any coarse soiling in the interior using a damp cloth. * Run the programme without dishes, and in combination with a machine cleaning detergent. * Use a special machine cleaning detergent, and not dishwasher detergent. * Observe the safety instructions and the instructions for use on the machine cleaning detergent packaging.Fault, what to do? aus Spray arms Limescale and contaminants in the rinsing water may block nozzles and bearings on the spray arms 1: and 1J. 1. Check outlet nozzles on the spray arms for blockages. 2. Unscrew the upper spray arm 1: (I) and remove downwards (2). 3. Remove the lower spray arm 1J upwards. 3 Fault, what to do? Experience has shown that you can rectify most faults which occur in daily operation yourself. This ensures that the appliance is quickly available to you again.aus Fault, what to do? Waste water pump 6. Check impeller wheel and remove Large food remnants or foreign objects which were not captured by the filters may block the waste water pump. The rinsing water will then be above the filter. 7. Place pump cover in the original : Warning Danger of cutting! Sharp and pointed objects or glass fragments may block the waste water pump. Always carefully remove foreign objects. Clean the waste water pump as follows: 1. Disconnect the dishwasher from the power supply.Fault, what to do? aus Fault table Fault Cause Remedial action Error code %< is lit. Intake opening (on right inside of Arrange utensils so that the intake aperture) covered by utensils. opening is not obstructed. Error code %> is lit. Heating element calcified or soiled. Clean appliance with dishwasher cleaning agent or descaler. Operate the dishwasher with water softening system and check the setting. Error code %< is lit. Supply hose kinked. Install supply hose without kinks.aus Fault, what to do? Fault Cause Remedial action A different error code is indicated on the digital display. (%< to %>) A technical fault has probably occurred. Switch off appliances with the ON/OFF switch (. After a short time restart the appliance. If the problem recurs, turn off the tap and pull out the mains plug. Call customer service and mention the error code. Refill indicator for rinse-aid No rinse aid. H is lit. Refill rinse aid.Fault, what to do? aus Fault Cause Remedial action Cutlery not dry. Cutlery not arranged properly in the cutlery basket. Separate cutlery if possible, prevent contact points. Cutlery not arranged properly in the cutlery drawer. Arrange cutlery properly and separate if possible. Appliance interior wet after No appliance fault rinse cycle. On account of the "Condensation drying" principle, water droplets are physically induced and required in the container.aus Fault, what to do? Fault Cause Remedial action Detergent residue. Detergent dispenser cover 9* Utensils must not be placed above the blocked by utensils and therefore tablet collecting tray 1B. These may do not open fully, block the lid of the detergent dispenser and prevent it from opening fully. – "Upper basket" on page 18 Do not place utensils or fragrance dispenser in the tablet collecting tray. Detergent dispenser cover 9* blocked by the tablet. Tablet must be inserted flat and not upright.Fault, what to do? aus Fault Cause Remedial action Tea or lipstick residue on the utensils. Too low rinsing temperature. Select programme with higher washing temperature. Too little or unsuitable detergent. Use suitable detergent at correct dosage. Utensils precleaned too intensely; sensors therefore decide on weak programme sequence. Stubborn soiling cannot be completely removed.aus Fault, what to do? Fault Cause Remedial action Initial or existing, irreversible clouding of glass. Glasses not dishwasher-proof, only suitable for dishwasher. Use dishwasher-proof glasses. Avoid long steam phase (standing time after wash cycle ends). Use wash cycle at lower temperature. Use detergent with glass protection component. Rust spots on the cutlery. Cutlery not adequately rust-resistant. Knife blades are frequently more severely affected. Use corrosion-resistant cutlery.Fault, what to do? aus Fault Cause Appliance stops in the Door not closed properly. programme or programme Do not place utensils or fragrance is interrupted. dispenser in the tablet collecting tray. Top basket presses against the door and prevents door from being closed securely. Power and/or water supply interrupted. Remedial action Close the door. Check whether rear panel is being pressed in, e.g. by socket or by hose holder which has not been removed. Restore power and/or water supply.aus Customer service 4 Customer service If you are unable to rectify the fault, please contact your customer service. We will always find an appropriate solution in order to avoid unnecessary visits by engineers. Contact information for your nearest customer service can be found on the back of these instructions for use or on the enclosed customer service list. When calling, please state the appliance number (E-Nr.Installation and connection aus Delivery Installation Your dishwasher has been checked thoroughly in the factory to ensure that it is in working order. This may cause small water stains. These will disappear after the first wash cycle. The required installation dimensions can be found in the installation instructions. Level the appliance with the aid of the height-adjustable feet. Ensure that the appliance is situated securely on the floor.aus Installation and connection Drinking water connection 1. Fasten the drinking water connection to the tap according to the installation instructions using the enclosed parts. Ensure that the drinking water connection is not kinked, crushed or twisted. 2. When replacing the appliance, always use a new water supply hose. Water pressure: at least 0.05 MPa (0.5 bar), maximum 1 MPa (10 bar). At a higher water pressure: connect pressure-reducing valve ahead.Installation and connection aus Electrical connection * * * * * Connect the appliance to an alternating current only, ranging from 220 V to 240 V and 50 Hz or 60 Hz via a correctly installed socket with protective earth conductor. See rating plate for required fusing 92. The socket must be near the appliance and freely accessible following installation.(does not apply to appliances without AquaStop) AquaStop guarantee In addition to warranty claims against the seller based on the purchase contract and in addition to our appliance warranty we will pay damages under the following conditions: 1. If our AquaStop system is defective and causes water damage, we will make good the damage for private users. To ensure water damage protection, the appliance must be connected to the power supply. 2.Page 2ausTable of contentsaust nst r uct i on manual8 Intended use	5) Safety instructions.	5) Environmental protection	10Packaging	10Old appliances	10* Getting to know your appliance	11Control panel	11Appliance interior	11Info button	12Time setting	12Switching on the appliance for the first time	13Settings	14 Rinse aid	16Setting amount of rinse aid	17Switching off rinse aid refill indicator	17 Utensils	17Not suitable	17Glass and utensil damage	17Loading the dishwasher	18Upper basket	18Lower basket	18Cutlery drawer	19Etager e	20Folding spikes	20Small items holder	20Knife rack	21Baking sheet spray head	21Unloading the dishwasher	22Adjusting the height of the basket	22 Detergent	23Adding detergent	24 Overview of programmes	25Programme selection	26Information for test institutes	26 Additional functions	27Speed Perfect	27Half load	27HygienePlus (HygienePlus)	27IntensiveZone	27Extra Dry	27Page 30Etagere, Utensils, Knife rack, Baking sheet spray head, Info button, Time setting, Sensor setting, Eco forecast, Auto Power Off, EmotionLight, Machine Care, Rinse aid, Filters, Safety instructions, Delivery, Technical specifications, Installation, Drainage connection, Drinking water connection, Warm water connection	28Changing the settings	28AquaSensor	28Time display	28Sensor setting	29extraDry	29Eco forecast	29Auto Power Off	29EmotionLight	29Front display	29TimeLight	30InfoLight	30Changing start programme	30Tone volume	30Button volume	30Child-proof lock	30Greeting	30Factory setting	30Switching on the appliance	30Time preselection	31Programme end	31Switching off the appliance	31Interrupting the programme	31Terminating the programme	32Changing the programme	32 Cleaning and maintenance	32Overall status of the dishwasher	32Machine Care	33Rinse aid	34Filters	34Spray arms	353 Fault, what to do?	35Error message	35Waste water pump	36Fault table	374 Customer service	445 Installation and connection	44Contents of package	44Safety instructions	45Technical specifications	45Installation	45Drainage connection	45Drinking water connection	46Warm water connection	46Electrical connection	47Removal	47Transporting	47Protection against frost (Emptying the appliance)	47Page 3AquaStop guarantee(does not apply to appliances without AquaStop)Contact information for all countries can be found on the enclosed customer service list.Repair order and advice on faults.GB 0344 892 8979Calls from a BT landline will be charged at up to 3 pence per minute.
